

Social Ecology Honors & Award Winners 2021-2022

Outstanding Contribution to the School of Social Ecology

is for meritorious work done by a student that either benefits the School directly or promotes the School either on or off campus. The range of service by these students varies from being a peer advisor, an administrative intern, a learning assistant, a mentor or more. These students are being recognized for their great service and leadership as well as commitment and contributions to our School.

Social Ecology Honors & Award Winners 2021-2022

Exceptional Achievement in Undergraduate Research

this award honors students that are extraordinary or meritorious in a way that goes beyond expectations in doing research. They excel in either assisting you with your research, or in leading their own research projects. Many of these students have performed honors research, served as research assistants, presented at UROP and national conferences, and have received various fellowships.
